

Saint Ignatius Cave / Manresa

THE HERITAGE OF THE PROTESTANT REFORMATION, 500 YEARS LATER

Manresa, 23 March 2023, 18h

Espai Plana de l'Om (Plana de l'Om, 5 - 08241 Manresa)

Five hundred years ago, in the first half of the 16th century, important currents of humanist, religious and political thought materialized and transformed Europe. After a period of relative stability, the European project and its values are currently being re-examined. In this context and coinciding with the end of the Saint Ignatius Jubilee Year that took place in Manresa, DIPLOCAT proposes to debate on the validity of this legacy and the ways in which the main characters of the Reformation can be presented to today's audience.
